### Notice

The members of the Citizens Band committee and the members of the band as well as those who feel interested in their welfare are requested to meet in the Fire Hall on Thursday evening, at 8.30 p. m., for the purpose of considering a celebration on May 24th in aid of the band.

By order.

### I.O.O.F. Notice

All members of Didsbury Lodge No. 18, I. O. O. F., and visiting members are requested to meet at the new lodge rooms over Kaufman's store on Sunday evening, May 4th, at 7 o'clock, to attend divine service at the Presbyterian church.

S. R. Wood, Secretary.

### Must Pay Back Taxes

The town clerk, Mr. B. A. St. Clair, has sent out a second and final notice to delinquent taxpayers by order of the town council, but so far very little of the back taxes have been paid. As this money, which amounts to \$6,000, is absolutely needed by the town to save trouble with the banks, the council feel that they will have to take drastic action to recover these taxes, much against their will. It is to be hoped that they will not have to go this far. Some of the ratepayers are under the impression that these back taxes do not have to be paid before July 1st because they are paying five per cent. interest on them. This is wrong. The taxes are due at time specified on the notice and five per cent. is charged even if they are only a few hours late in being paid. The Council can take action at any time to collect these taxes.

### Didsbury School Field Day

In keeping with the progressiveness of everything "Didsbury," something new is to be inaugurated by the staff and students of the Didsbury Public and High Schools. This something is to take the form of a field day on Arbor Day, May 9. A fine programme of events has been drawn up for girls and boys of every age in the school. Medals have been donated for boys senior and junior championships and it is to be hoped that the merchants and others will show their interest in the sport of the students by giving prizes for the various events. A basket ball match between Olds and Didsbury school girls will be an added attraction. Parents are cordially invited to attend. All of the events will be run off on the school grounds. It is the intention to give out the medals and prizes to the winners of various events at the school concert to be given in the Opera House on Friday night, May 9.

### AROUND THE TOWN

Mr. J. Baptist and Miss Lottie Baptist of Sunnyslope were visitors in town on Tuesday.

## DOMINION FORESTS

### How the Federal Reserves are Being Developed

The Dominion Forest Service has progressed farther than any other service in Canada in the laying out of forest reserves and providing for their proper administration. Sixteen million acres have been definitely set apart by Act of Parliament to be administered as forest reserves. Additional areas are being examined each year, and some six million acres additional are now under temporary reservation and will shortly be added to the reserves set apart by statute. The mere setting apart of reserves, though an important step, is only a preliminary one. Although, unfortunately, in some cases it has not been realized that anything further is necessary, this mistake has not been made in the federal administration.

The reserves have been organized by appointing an inspector in charge for each of the western provinces. The inspectors selected are men who have had a thoroughly technical training in forestry and who have shown good administrative ability. In each of the inspection districts the reserves are laid out in units or forests, each under charge of a technically trained man or a man experienced in timber administration. Twelve such divisions have already been established, and others are being organized and manned with forest rangers as the development of the reserves and the fire danger may render necessary. These divisions do not include patrol outside of forest reserves on the large areas of forest not included therein. In such areas there are in addition twelve patrol divisions each under charge of a chief fire ranger.

On each of the forests, houses have been erected for the forest rangers so that they may be close to their work and give it careful supervision. At different points throughout the forest, huts have been erected as headquarters for summer patrols and in some of the more inaccessible districts. 470 miles of trails and roads have been constructed so as to make the reserves more accessible. 10 bridges have been constructed, and 100 miles of telephone have been put in operation. A much enlarged programme of such improvement work has been laid out for the coming year. A conference of the inspectors was recently held at Ottawa to plan the work for the coming season and the construction work on the reserves will be pushed as rapidly as possible so as to have the reserves made immune from fire, as they are in Europe, in the shortest possible time.

### A Puzzle

What puzzles me, said Uncle Snooks as he looked up from a book he was consulting, is this: If a man is standing on the side of a hill or mountain how is he to settle in his mind whether he is on an acclivity or declivity? According to my dictionary here the former is a slope up and the latter a slope down. I've never yet seen a slope up that didn't slope down.

## CHILDREN IN THE HOME

When there are children in the home it requires constant attention to keep them free from the many childhood ailments which come so quickly—some of them proving fatal while others leave the little one cross, restless and weak. To keep little ones well Baby's Own Tablets must be kept in the house. These Tablets regulate the stomach and bowels, break up colds and fevers; expel worms and make teething easy. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### He Understood

The man and his wife in the motor car came face to face with the man on a heavily-laden wagon in a narrow lane. Quite as a matter of course the husband made a move to back out and allow the wagon to pass. But his wife objected.

Let him back out she said coldly. We were here first. He must have seen us coming.

Her husband pointed out that a sharp curve in the road rendered this impossible.

I don't care reiterated the dame in the car. I don't intend to move. I'd rather remain here all day.

But—, the husband began feebly. Give over, man, said the carter, and the tones of his voice expressed a great sympathy. Don't argue any more. I'll back out. I've got one like her at home!

### No Chance to Escape

I couldn't get out of marrying her, Henpeck explained. When she proposed she said: Will you marry me? Have you any objection? You see, no matter whether I said yes or no, she had me.

Why didn't you just keep silent, then? inquired his friend.

That's what I did, and she said: Silence gives consent, and that ended it.

## SPLIT 40 CORDS AT AGE OF 85

### Thankful to the Medicine That Gave Him Ability For the Task.

### A VERY INTERESTING CASE

Few men of eighty-five years of age can boast of much else but poor health and failing strength. And such was the condition of Mr. Benj. Marsh, who is known to every soul in the neighborhood of his home at Lime Lake, Ont.

"Quite unsolicited," writes Mr. Marsh, "I wish to say how I have been bothered for years with stomach trouble. I tried everything I could think of without benefit. I was terribly afflicted with swelling and gas, and had much distress between meals. I tried everything I could think of, but without benefit. Then I was recommended Nerviline. My, but Nerviline did me a power of good—made a new man of me, so that within the last three weeks I have been able to split about forty cords of stove wood. I will always stick to Nerviline and will always recommend it, and would like to meet anyone and convince them if in doubt as to what Nerviline has done for me."

For sour stomach, nausea, belching of gas, cramps and sudden sickness at night, nothing is more helpful in the home, nothing saves so much pain and distress as Nerviline. Large family size bottles, 50c; small size, 25c; at all storekeepers and druggists or The Catarrhzone Co., Buffalo, N.Y.

### All Square

It was in a West End restaurant, where Sandy went for a drink, and he ordered a whisky and soda, for which they charged him a whole shilling. He complained of the price and said that he was only accustomed to pay three pence for a nip of whisky.

Next day Sandy went into the same place again, ordered a drink and put down three pence. It was a different barman, but he protested.

No, no said Sandy. No, no, mon; that's all right. I saw yer picture yesterday.

## MOTHERHOOD SUGGESTIONS

### Advice to Expectant Mothers

The experience of Motherhood is a trying one to most women and marks distinctly an epoch in their lives. Not one woman in a hundred is prepared or understands how to properly care for herself. Of course nearly every woman nowadays has medical treatment at such times, but many approach the experience with an organism unfitted for the trial of strength, and when it is over her system has received a shock from which it is hard to recover. Following right upon this comes the nervous strain of caring for the child, and a distinct change in the mother results.

There is nothing more charming than a happy and healthy mother of children, and indeed child-birth under the right conditions need be no hazard to health or beauty. The unexplainable thing is that, with all the evidence of shattered nerves and broken health resulting from an unprepared condition, and with ample time in which to prepare, women will persist in going blindly to the trial.

Every woman at this time should rely upon Lydia E. Pinkham's Vegetable Compound, a most valuable tonic and invigorator of the female organism.

In many homes once children there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

### C.P.R. Flower Day

It is just twenty-four years since an employe of the C.P.R. raised a few varieties of flower seeds in his own garden and distributed them among his friends in the company with the idea of beautifying to some extent the somewhat barren aspect of the stations on the railroad round houses and yard offices on the company's property. It was a small beginning but today the C.P.R. is celebrating its semi-annual flower day and the little seed planted in the earlier day has grown to such an extent that it requires a floral department to handle the work and instead of a few packages of seeds handed out to a limited number of employes no less than 150,000 packets of various varieties have been distributed to station agents, section foremen, those in charge of round houses, yard offices and all employes living on company's property, showing an inclination towards the cultivation of flowers. In the fall a million of bulbs were given out and the benefit of these is now being felt, as from the Atlantic to the Pacific and even on Vancouver Island, the traveller will see the delightful results from the fall planting of these luxurious flowers. Even in the midst of the prairies where men are permanently encamped working on the irrigation ditches at forty different points have seeds been sent for cultivation, which is another demonstration of the effect the tending of flowers has on the human mind and body. These men take a great delight in caring for the plants as they gradually grow and enjoy their fragrance as much as the man nearer home. The influence and encouragement of flower growing on the C.P.R. during the last twenty-four years has materially assisted in the inauguration of floral societies in almost every town along the lines of the system, and an examination will show that actively connect with these hundreds of societies are employes of the C.P.R. whose first lesson in flower culture and the love of the beautiful were learned in the service of the company under the stimulating influences of the floral department. Station improvements have led to town improvements and often the C.P.R. is asked to co-operate with some of these institutions for the beautifying of open spaces, and in many instances the station is a sort of bureau for flower information, while the floral department at Montreal is looked upon as the headquarters of flower information for the whole of the C.P.R. system from the Atlantic to the Pacific. In every division special prizes are awarded for the best displays and many of the employes have become so interested in the work as to try their results against the best in the country by exhibition at the big exhibitions. In many instances they have been very successful and have carried away the premier prizes. Many agents have wonderful vegetable gardens in the west for the climate is such that anything can be grown.

The Pill That Brings Relief.—When after one has a variation of a meal he is oppressed by feelings of fullness and pains in the stomach he suffers from dyspepsia, which will persist if it be not dealt with. Parvex's Vegetable Pills are the very best medicine that can be taken to bring relief. These pills are specially compounded to deal with dyspepsia, and their sterling qualities in this respect can be vouched for by legions of users.

### Exact Location

It doesn't always pay a lawyer to be stern with the posing witnesses when cross-examining them. They are often as clever as the attorney and the following anecdote illustrates how one witness put one over on a bright young lawyer.

Sir, said the lawyer sternly, you need not state your impressions. We want facts. Now, henceforward, answer me categorically. You say you live next door to the defendant?

Yes. To the north of him?  
No. To the south?  
No. To the west, then?

No.

Ah, said the lawyer sarcastically, at last we are likely to get down to one real fact. You live to the east of him, do you?

No.

How is that, sir? said the astonished attorney. You say you live next door to him yet you live neither to the east, west, south nor north. What do you mean by that sir?

I thought perhaps you were incompetent to form the impression that we live in a flat, said the witness; but I see I must inform you that he lives next door above me.

### 'Twas Better So

They were engaged. Perhaps I repented, perhaps he did it only for me. Said he:

My darling Ethel, what would you say if I were to tell you that I cannot marry you.

I would say, my dearest love, that I have a big brother who would make it warm for you, and that I have some of the sweetest little billets-doux that would make it expensive for you, George dear.

But you know I haven't said it. I know you haven't, my pet.

No we'd better get married, hadn't we?

I think so, my precious.

Ponder This—You'll be sorry some day that you didn't marry.

Well, I'd rather not be married and be sorry I wasn't than be married and sorry I was.

### Fate of the Fare

The portly gentleman hailed the passing cab. Cabby, he said, \$1.50 if you drive me to the station in less than fifteen minutes.

In he jumped and away went cabby at a rattling rate. On reaching the station he was delighted to see that he had still three minutes to spare. As soon as the door was opened the fare stepped out, panting and mopping his streaming brow.

Whatever's the matter? asked cabby.

Matter! Phew! Can't you see that the bottom's dropped out of the cab and I've had to run all the way to the station. Phew! Then, as he looked about him, his purple face becoming mauve. Cabby, he said, you've brought me to the wrong station, and I've lost the train.

## COP DRESSED AS GIRL

Did Not Feel Quite at Home in Togs, Yet Success Was His

London, England.—Dressed as a woman, a fresh-complexioned young Wokingham, Berkshire, police constable named Albert Sellwood so completely deceived John Butler, a local painter, that he did not know until after his arrest that he had attempted to flirt with a constable. At Wokingham police court Butler was sentenced to two months' hard labor for sending objectionable letters to Miss Bartholomew, of Wokingham.

These letters, it was stated in court, asked Miss Bartholomew to meet him outside her home. She did not read the letters, her mother opening them and her father informing the police. In order to identify the writer and to arrest him, Superintendent Goddard conceived the idea of dressing Sellwood in clothes belonging to Miss Bartholomew. So disguised, Sellwood kept the appointment made for Miss Bartholomew.

Sellwood told how he played his part. I dressed at Miss Bartholomew's house. I wore a tight-fitting light brown serge skirt, a white blouse, a Dolly Varden hat, motor veil, feather boa and a long gray ulster. Dressing was not an easy matter. The skirt was rather tight round the waist and the movements of my legs were very much restricted. The hat went on easy enough but I had a little trouble with the blouse.

Walking down the drive I found myself tripping, through trying to do the regulation 36-inch stride. I soon came down to 18 inches. I saw Butler standing near the gate and I walked up to him. Then I thought of my voice, which is rather deep. I pitched it as near to the falsetto as I could and said: Good evening. He was delighted to see me, called me 'Dearest' and suggested a walk.

I arranged to meet him again two evenings after at the same time and place. On that evening at 7.30 I dressed up again, only was not alone. Butler was then arrested, and that ended my part.

Further indication of the developments of Prince Rupert's fishing industry is to be found in a despatch from that place received at Grand Trunk Pacific headquarters in Montreal announcing the consignment of the first carload of halibut to the east by the Canadian Fish and Cold Storage Company. The fish are shipped to Boston by express and are reported to be in the very best of condition. Temporarily these shipments are forwarded to Vancouver in regular coasting vessels and shipped thence in cold storage cars but as soon as the main line of the G.T.P. is completed they will be despatched direct from Prince Rupert from that route.

So rapidly has the Canadian Fish and Cold Storage Company's business developed that it has recently been obliged to add two vessels purchased in Seattle to its already numerous fleet. On these vessels are a large number of fishermen from New Brunswick, Nova Scotia and Newfoundland coming north to engage in their occupation at Prince Rupert.

## OLD SORE HEALED IN SIX DAYS

Nearly Impossible to Heal Skin. Badly Hurt. Sore, Red and Inflamed. Could Not Sleep. Cuticura Soap and Ointment Healed.

Bowman River, Manitoba.—"When I was thirteen years of age I got my shin badly hurt and when healed the skin was attached to the bone. The least bruise would inflame it and it was nearly impossible to heal. The sore would be very red and inflamed round the edges and had a burning sensation. When extra sore I could not sleep at night on account of the pain. I always wore a cotton bandage on it from the ankle to the knee. For a number of years I used sticking plasters, then got a salve. I saw the advertisement offering a free sample of Cuticura Soap and Ointment and sent for a sample and purchased some more and in six days the sore was healed completely." ## CHINESE LOOT STEAMER

Captain and Officers are Saved by Intercessor of Woman Missionary

Hongkong, China.—The British West river steamer Talon, which signaled that it had been attacked by pirates, has arrived here. It reports that the pirates, whose numbers were variously estimated at from 100 to 1000 and who were armed with revolvers, came on board at Hongkong last night disguised as passengers bound for Hongmoon.

The Talon was three hours out from Hongkong and was just outside British waters when the pirates rose. They killed the Chinese steersman, and having thus held the steamer up, seized Captain Holmes, Chief Officer Cornwall and Engineer Macartney, whom they tied up securely.

They attempted to burn a woman missionary's cabin with rags soaked in paraffine, and having stolen all her money, amounting to \$80, and her gold watch, took her into the saloon. The woman prevailed on the pirates not to harm the European officers.

The pirates killed one and wounded four passengers all Chinese; ransacked the officers' cabins, stealing \$170 in cash, besides a quantity of valuables, and secured a considerable amount of booty from the passengers.

They disabled the engines and dynamo, smashed the switchboard, and carried off the ship's lights and stands of arms and ammunition. They held possession of the steamer for four hours, eventually rowing off in a boat, which they stole, and two sampans.

## FINES FOR DOPING HORSES

French Steeplechase Society Guar. Against Fraud

Paris.—Penalties varying from \$100 to \$1000, with power to withdraw trainers' licenses in the last resort, are imposed for doping (giving stimulants to horses) by regulations adopted at the annual meeting of the French Steeplechase Society.

The responsibility is thrown on the trainer in every case in which it is proved that a horse ran under the influence of a stimulant illegally administered. Horses with respiratory tubes will be debarred from race courses controlled by the society.

## KAISER TO VISIT GIBRALTAR

Wishes to Inspect World's Most Famous Fortifications

Berlin.—The Kaiser intends to pay a visit to Gibraltar next month in order to inspect the famous citadel. He will leave Cuxhaven in the Imperator, the giant Hamburg-American liner, which will be making its maiden trip.

Gibraltar will be reached in three days. One day will be devoted to the fortress, where it is expected several British and foreign battleships will gather to greet the royal visitor. The Kaiser will then return to Germany on his first journey to America a week later.

The Kaiser has sent an invitation to Sir Ernest Cassel to accompany him on the trip.

## ASPHYXIATED IN A BUS

Fumes From Benzine Tank . danger Lives of Passenger

Geneva.—A strange accident is reported from Fieims, in the Tyrol, endangering the lives of seven visitors, one of whom was an Englishman.

The motor omnibus, which had replaced the old horsed diligence in the district of Fieims, arrived at the station of Fonne-Froide, and the chauffeur opened the door to ask the travelers to descend. All the passengers were lying in a heap, and looked as if they were dead. The unconscious travelers were at once carried to a hotel, where doctors attended them, and they recovered.

The cause of the accident was a defective benzine tank. The fumes of the gas had entered the closed car, gradually rendering the occupants unconscious.

## NEW THEATRE IN PARIS

Built by a Syndicate Including Many Americans

Paris.—The Grand Theatre des Champs Elysees gave two inaugural performances recently of "Benvenuto Cellini" by Berlioz, and "Freischuetz" because one performance would not be sufficient to enable the thousands who wished to do so to make acquaintance with the new theatre. The Theatre has been built by a syndicate, in which there is a good deal of English and American money, in the Avenue Montaigne, which runs down to the Seine from the Champs Elysees. It will seat about 2000 people and has been built in rather less than two years.

## REGRET LOSS OF SECRETS

France in Possession of What She Would Have Given Fortune to Know

Berlin.—It was recently stated the press and public, with few exceptions, are manifesting a masterly composure over the fall of the Zeppelin secrets into the hands of the French. But in the ultra-patriotic quarters of the air party Z's fate produces a state of mind bordering on hysterics.

The Taegliche Rundschau suggests that the officers in the ship can only be adequately dealt with in the way France dealt with Marshal Bazaine for the surrender of Metz; namely, by court-martial. The journal agrees with Die Post that it was unquestionably duty of the senior German officer in Z 4 to blow up the airship with all on board and let it alight on the parade ground at Luneville a shapeless mass of smoking wreckage, rather than run the risk of permitting its priceless secrets to fall into French hands.

When the Zeppelin passenger airship company's offices at Frankfurt-on-Main sent word to the Kaiser at Homburg of the events at Luneville, his majesty's first inquiry was for the names of the officers on board. It is declared that the French intelligence department has gained information for which it would probably have been glad to pay an immense sum of money. That is the point which strikes Germans as by far the gravest aspect of the affair. The Taegliche Rundschau even expresses the fear that the prize which has fallen into France's hands may be deemed by her of such enormous value that she will not much longer delay the day of reckoning. Captain Hildebrandt, in the Lokal Anzeiger, however, says the French will not even now be able to imitate the Zeppelins.

London.—A carpenter named Harnigold, living at Terrington, West Norfolk, dreamed on Wednesday night that on the following day he would have to make a coffin for his father. On the following morning the father was found dead in bed from heart seizure, and later in the day the son made the coffin.

## SPRING IMPURITIES IN THE BLOOD

A Tonic Medicine is a Necessity at This Season.

Dr. Williams' Pink Pills for Pale People are an all year round tonic, blood-builder and nerve-restorer. But they are especially valuable in the spring when the system is loaded with impurities as a result of the indoor life of the winter months. There is no other season when the blood is so much in need of purifying and enriching, and every dose of these pills helps to make new, rich, red blood. In the spring one feels weak and tired—Dr. Williams' Pink Pills give strength. In the spring the appetite is often poor—Dr. Williams' Pink Pills develop the appetite, tone the stomach and aid weak digestion. It is in the spring that poisons in the blood find an outlet in disfiguring pimples, eruptions and boils—Dr. Williams' Pink Pills speedily clear the skin because they go to the root of the trouble in the blood. In the spring anaemia, rheumatism, indigestion, neuralgia, erysipelas and many other troubles are most persistent because of poor, weak blood, and it is at this time when all nature takes on new life that the blood most seriously needs attention. Some people dose themselves with purgatives at this season, but these only further weaken themselves. A purgative merely gallops through the system, emptying the bowels, but it does not cure anything. On the other hand Dr. Williams' Pink Pills actually make new blood which reaches every nerve and organ in the body bringing new strength, new health and vigor to weak, easily tired men, women and children. Try Dr. Williams' Pink Pills this spring—they will not disappoint you.

## It Cured Him

There had been a little breeze at dinner. Relations between husband and wife, were for the time being, distinctly strained. The silence grew oppressive.

So you think I smoke too much? he asked at length, harping back on the same chord, just by way of saying something.

Not at all, she replied deliberately forcing a yawn.

Well, that's what you said a few minutes ago.

I didn't say anything of the sort. I don't think you're smoking too much. Didn't you say I'd die if I didn't cut it down?

Yes; that's what I said.

And it took him quite a long time to grasp the meaning of the remark. Then he was quite angry.

But it cured him of the habit.

Miller's Worm Powders are par excellence the medicine for children who are found suffering from the ravages of worms. They immediately alter the stomachic conditions under which the worms subsist and drive them from the system, and, at the same time, they are tonic in their effect upon the digestive organs, restoring them to healthful operation and ensuring immunity from further disorders of such a cause.

## TO FINANCE BRITAIN

CLOSE TO ONE BILLION DOLLARS IS THE HUGE ESTIMATE

Chancellor Lloyd George Staggered the Nation in introducing the Budget—The Large Increase is Caused by Expenditures for Army and Navy Armaments.

London.—It will cost the staggering sum of \$978,200,000 to run the British government during the ensuing fiscal year, according to the chancellor, Lloyd George, who introduced his budget in the House of Commons. This is a big increase, the augmentation being caused by expenditures for army and navy armaments.

According to the chancellor, the British public is going on the water wagon. His speech showed that 23,000,000 gallons less spirits were drunk in the past four years than in the preceding period.

The export trade of the country is not at its high water mark. The chancellor said he would be prepared to raise \$25,000,000 outside of known revenues. No new taxes will be imposed to meet the expenditures.

The European money stringency, said the chancellor, is due to France and Austria and Germany hoarding \$300,000,000 for any emergency which might involve war. British trade is increasing at the rate of about \$5,000,000 annually.

While he could not remit any taxes, he expected to pull through without levying any new imposts. This, he said, was in spite of the fact that he was faced with the necessity of finding the sum of \$37,500,000 more than the revenue had brought him during the fiscal year just closed.

The chancellor estimated that the total revenue on the existing basis of taxation would be \$979,125,000 leaving a margin of \$925,000 over the estimated expenditure.

The cost of armaments, Chancellor Lloyd George remarked, is the largest and most sterile increase in the expenditure, and I cannot see any prospect of this menacing development coming to an end, unless some change takes place in the attitude and policy of the nations concerned.

The expenditure on education and social reform was lauded on the other hand by the chancellor as reproductive work, promising strength, happiness and efficiency to the nation.

The Chancellor drew an encouraging cheer from the House with the statement that although the consumption of spirits had actually decreased by 23,000,000 gallons in four years, the revenue had increased, he said by \$25,000,000 so proving that his method of taxing the tariff in liquor was one of the most successful imposts that had ever been levied.

## C.P.R. to Use Telephones in West

Winnipeg.—The Canadian Pacific Railway will construct 4,775 miles of telegraph wire during 1913. An immense programme is mapped out by officials of the company for western Canada, and it is ultimately their intention to use telephones exclusively throughout the west with the exception of small branch lines. The use of telephones for conducting the business of despatching trains and carrying commercial messages will be adopted in the course of the next few years. Two thousand, two hundred and eighty miles of lines will be operated this year by telephone.

## French Press Quiet About Scandal

Paris.—The entire press except the anti-militarists are preserving an extraordinary silence about the Krupp scandal. The absence of editorial comment is taken generally as a courteous rebuke to the German outbursts on the Nancy incident, and not a suspicious sign of the truth of the charges which, except in one or two cases, are said to be highly uncertain. The Figaro, the only paper as yet directly accused, does not deny that it received Krupp overtures, merely stating that it never printed the alleged articles to increase French hatred of Germany.

## Lecture by Sir William Osler

New Haven, Conn.—Sir William Osler, the English medical authority, delivered the first of five Stillman lectures on 'The evolution of modern medicine' at Yale. The lecture dealt with the origin of medicine in primitive man, and its relation to magic and religion. The character of ancient medicine may be studied there, he said in China, where charms, enchantments and death-banishing herbs are universally employed.

## Rush Work on the Pas Terminals

The Pas, Man.—Chief Engineer Armstrong, of the Hudson Bay railway, has received definite instructions to start work as early as possible on the huge terminals on the south side recently purchased by the department of railways from the department of Indian affairs. When all the ground bought and otherwise secured has been utilized by the repair shops, roundhouses, depot and forty tracks, over six hundred and fifty acres will be employed.

## Improving Upper Cove

Calgary, Alta.—The Dominion government will expend \$100,000 on the Upper Cove at Banff according to S. J. Clarke, superintendent of the National Park. Their work will start just as soon as the funds are available. The season opened early this year and already the resort is crowded with visitors.

## ENGLAND AND JAPAN

The Times Expresses an Opinion on California Scheme

London.—Inter—In the development of the question of the Japanese colony in California is very considerable here. The Times in an editorial this morning says:

Public feeling in Japan has been strongly aroused and it is clear from indignation meetings which have been held that the Japanese believe that the dispute to be merely symbolic of the whole question of their future status in the world. Dispassionate observers can, at least, appreciate the feeling at work on both sides.

The action of the California legislature only represent one phase of the rising alarm in the United States at the growth of large populations not akin in tradition to the original founders of the American nation. On a solid mass of ten million negroes there has been superimposed a dense layer of backward peoples from Southern and Eastern Europe, and the white races in the western states have an additional dread of competition from Asia by folk who can underlive the white man. Japan, on the other hand though cherishing no impossible dreams, is gaining a foothold on the American continent and is keenly resentful of importations of racial inferiority. It is the humiliation which wounds her and the proud, sensitive nation which has newly won a place in the world feels acute that her sacrifices and struggles have not yet achieved for her all the recognition which she deems to be her due.

It is precisely because such inflammatory susceptibilities are discernable in both quarters that we hope President Wilson will succeed in his efforts to obtain either an abandonment, or at any rate, a modification of the threatened Californian legislation.

## Wheat Yield 200,000,000 for 1913

Winnipeg.—The head offices of the G.T.P. estimate that the wheat yield for the coming year will be at least 200,000,000 bushels. The G.T.P. and the C.N.R. will have space for the storage of at least one-tenth of this output, the storage being measured for grain that will be in the elevators at one time. Their capacity for handling the grain this year is considered better than it ever was, and the officials are satisfied that no blockade will occur with the coming of the navigation season, and in the west all eyes have been turned to the elevator capacity and the G.T.P. makes the following announcement:

In Alberta there are 18 elevators with a capacity of 905,600 bushels; Saskatchewan, 75 with a 3,785,000 bushel capacity; Manitoba, 25 with 918,000 bushels; Georgian Bay ports, 10 with 9,860,000 bushels; West Port one with 6,000,000 bushels; Montreal, one with 1,180,000 bushels; total, 22,649,000. It is to be borne in mind that these figures represent what can be stored at one time, and does not affect wheat which is in transit.

## Will Likely Bore for Gas

Wainwright, Alta.—It has recently been pointed out that Wainwright is in a direct line north of the Medicine Hat gas fields, and experts state that in their opinion indications would seem to justify extensive investigations with a view to ascertaining the character and location of the natural gas resources of this vicinity. Wainwright's industrial expansion during the past few months has been especially encouraging, and substantial; and it is believed that with the additional impetus that would be derived from the finding of gas in commercial quantities an era of large development would be assured. An appropriation for this purpose is now under consideration by the city council.

## Build Lines into Biggar

Biggar, Sask.—Railway construction work centering at Biggar continues to go forward on an elaborate scale, and the indications accumulate pointing to this city as the eventual location of a home terminal and central divisional headquarters. Early in May the G.T.P. bridge over the Bow river is expected to be completed after which the final portion of the line will be laid into Calgary. Meanwhile rapid progress is reported on track laying of the Biggar-Calgary line, the line of steel now reaching to within a few miles west of this city.

## Dr. Roche to Visit England Soon

Ottawa.—Hon. Dr. Roche, minister of the interior, will sail for England on the Olympi from New York on May 3. He will be absent about six weeks and will visit Scotland and Ireland. He will combine rest and state business. The ocean voyage has been presented as a tonic effect after his recent severe illness and in Great Britain he will look into immigration matters with a view to a partial reorganization of the Canadian immigration agencies there.

## Prairie Fires are Out

Moose Jaw, Sask.—Advices from the south country are to the effect that all prairie fires are now out. Twelve farmers in the Willow Bunch district have suffered losses to buildings and stocks, some of them being total.

## Health of Duchess Improving

London.—Her Royal Highness the Duchess of Connaught has made such excellent progress that bulletins have been discontinued. At an early date it is hoped to remove her to a milder climate.

## POWERS ARE WORRIED

FALL OF SCUTARI PRESENTS AN INTERNATIONAL PROBLEM

An Unusual and Extraordinary Situation Now Confronts Europe—The Next Step of the Powers in Facing the New Situation is Difficult to Forecast.

London.—The news of the fall of Scutari to the Montenegrins has been received with extraordinary demonstrations of joy in all the Allied Capitals, notably Belgrade, and the Bulgarian Premier has sent effusive congratulations to the Montenegrin Premier.

The first effect of the fall of the fortress has been the extension of the international naval blockade to Durazzo, but what will be the next step of the Powers in facing the new situation is difficult to forecast. According to the view prevailing at St. Petersburg, the coercion of Montenegro won't not be an easy one.

Austria-Hungary has already made definite proposals to the Powers with a view to compelling Montenegro to evacuate Scutari, but it is not certain that such proposals will be welcome.

The Vienna correspondent of The Daily Telegraph asserts that the Austrian government has repeatedly, but vainly tried to induce the Powers to consent to the landing of forces from the international fleet to bring pressure upon King Nicholas. He adds that Austrian patience is now exhausted and that Austria insists either that the Powers compel Montenegro to evacuate Albanian territory, including Scutari, or that Austria can be given a mandate to do so.

Austria believes that an expeditionary force of 4,000 can achieve this task without bloodshed, and unless the Powers speedily come to a decision, she will act alone.

The press of the whole of Europe recognizes that the situation is extremely serious. The ambassadorial conference met in London and discussed the peace negotiations and the fall of Scutari. It is understood an agreement was reached.

## Another German Airship in France

Nancy, France.—Another international military aviation incident occurred on the Franco-German frontier when a German army aeroplane alighted on French territory at Nord Arracourt. Two German officers in uniform were on board.

The local military police and French customs officers hastened to the spot and Captain Devall explained to them that his gasoline had become exhausted. He had thought at the time of landing that he was on the German side of the frontier.

The French administration officials are conducting an investigation and meanwhile the German aeroplane is kept under detention.

The French ministers of war and interior, after they had heard the report of the civil and military authorities, decided that the landing was unavoidable.

The aeroplane was released and returned to Germany.

## MILLER'S RELEASE

Friends of State Prisoner Ask His Freedom on Usual Grounds

Ottawa.—The release of R. C. Miller, of Montreal, from the Carleton county jail where he has been confined for two months for defying parliament and refusing to divulge the destination of \$41,000 paid him to act as business for the Diamond Light and Heating Company of Montreal, is the object of a petition which was put into circulation among the prisoner's friends in Montreal and elsewhere. His health is said to be the chief ground on which the petition for Mr. Miller's release was based. It was contended that he is failing physically by being kept in durance and is too ill to be kept in jail.

## Bad Ammunition at Quebec Arsenal

Ottawa, Ont.—It is stated here in good authority that following an investigation recently ordered by the minister of militia, and conducted by Lt.-Col. Morrison, D.S.O., in Quebec city, the discovery was made that millions of rounds of small arms ammunition were found defective, and that a couple of hundred thousand rounds were found absolutely useless.

The ammunition was manufactured during the past year in the Arsenal at Quebec and it is understood the gross carelessness on the part of those responsible for the manufacture of the ammunition caused the defects. It is understood that the minister of militia is at present contemplating what action will be taken in the matter.

## C.P.R. CONCILIATION BOARD

Board Named to Adjust Affairs of Trouble on Alberta Division

Ottawa, Ont.—A board of conciliation has been established by the minister of labor, Hon. T. W. Crothers, which will look into the adjustment of the dispute between the Brotherhood of Railway Firemen on the Alberta division of the C.P.R., and the company. The members of the board are Professor Adam Short (chairman); J. H. Wellington, of Moose Jaw, appointed by the company, and D. Campbell of Toronto, appointed by the men.

Professor Short was recommended as chairman by Messrs Wellington and Campbell, the minister of labor confirming the appointment.

## MORE NEED FOR RESEARCH

Dr. George Bryce, of the Royal Commission, Says Canada is Losing Greatly

Ottawa.—The crying need which exists in Canada for industrial research was emphasized in an interview with Dr. George Bryce, of Winnipeg, member of the royal commission on technical education, who has returned to this city for the final meetings of the commission.

Too many officers said Dr. Bryce, have not been educated in the knowledge of the schools, but are men who know practically nothing of applied science and who in consequence, have forced their way up through sheer fighting ability. I through the application of principles which they do not understand. Many manufacturers think it sufficient to have a so-called practical man, one not instructed but simply an expert mechanic, who serves as a guide, philosopher and friend. Such a manufacturer does not value expert advice, shuts his eyes to the waste of his business, settles down to a career of non-progressiveness, agitates for a higher duty upon his products and then, dissatisfied, turns to thoughts to find legal combinations where to renege for many of his difficulties is scientific research.

After pointing out that a different state of affairs exists in Germany and in the United States, where there are institutions of higher learning and in scientific occupations no fewer than 600 graduates of Toronto university, a direct loss to Canada, which should have kept these men, Dr. Bryce pointed out that there were scores of problems needing scientific examination in Canadian industries. Some of these were the utilization of the Cobalt tailings in the Cobalt silver mines, the investigation of sulphur in coal, straw, peat, woodpulp, the utilization of sewage etc.

The means of research could be applied either by government assistance or private benefaction but Dr. Bryce considered it could best be done by governments. Dominion local and municipal co-operating in advanced technical education by the co-operative association of universities and technical schools assisted by the support of Canadian manufacturers.

## Treaties are Contracts

Washington.—Senator Chamberlain's resolution for the abrogation of the Hay-Pauncefote treaty in the opinion of the state departments officials will be confronted with the contention that neither the treaty nor the Clayton-Bulwer treaty can be abrogated by the action of the United States without the consent of Great Britain. These treaties, the officials point out, are in the nature of civil contracts and where one party, the United States, for instance, had acquired equitable considerations on their terms, it cannot escape the liability without the full consent of the second party. Diplomatically and according to the verbiage of international law, the Status of the United States, they, the Status of the United States is one of National servitude.

## TURKISH REFUGEES

Sixteen Thousand are in a Pitiable State at Fiera

Vienna, Austria.—Some 16,000 Turkish soldiers with whom are David Pasha and all his generals, the remnants of the Vard army and refugees from the fortress of Janina have arrived at Fiera on the coast of the Adriatic sea.

The fugitives are said to be in a pitiable state. The troops are mostly ill and suffering from starvation. They are completely demoralized.

The whole of southern Albania has been cleared of means of subsistence by the various armies which have marched through the territory and famine reigns among the remaining inhabitants everywhere.

## Enlarged Plans for Summer Fair

Brandon, Man.—Plans are now well in hand for the Brandon Summer Fair and the exhibition promises to be conducted on a scale hitherto unthought of in this section of the West. Since the close of last year's fair extensive additions and improvements have been made at the fair grounds, which now include horticultural, live stock, fire arts and educational departments, together with a well-built grand stand, said to be one of the largest in Western Canada. The mercantile display building will also be among the special features, and the newly organized Brandon branch of the Canadian Manufacturers' Association promises a strong support to this department of the fair.

## Discovery of Copper

Roila, N.D.—Considerable excitement has been stirred up in the Turtle Mountain district on account of the discovery of copper, which was recently sent to mining engineers for analysis. It was first thought it was gold, but the assayer claimed it was good copper ore. Since then the prospectors have come considerable distances to look over the country with a view to ascertaining whether there is anything in the claims made.

## Appellate Jurisdiction Bill Passes the Committee

London.—The Appellate Jurisdiction bill, presented by Lord Haldane, which provides for the creation of two law lords for the judicial committee of the Privy Council, passed the committee stage in the House of Lords.

## THE SUNDAY SCHOOL

LESSON V.—SECOND QUARTER FOR MAY 4, 1913

Text of the Lesson, Gen. xi, 9-23. Memory Verses, 14, 15—Golden Text, Job xxxii, 8—Commentary Prepared by Rev. D. M. Stear

Today's chapter suggests the dreams of Scripture and shows how God uses even a dream as a link in His chain of providences. He warned Abimelech and Laban in a dream, revealed Himself to Jacob in dreams; also spoke to Pharaoh and Nebuchadnezzar in dreams (Gen. xx, 3, 6; xxviii, 12; xxxi, 26-11-24; xl, 17; Dan. ii, 1). Gideon also and Solomon heard God in a dream (Judge vii, 13; 1 Kings iii, 5-15). In connection with the birth and infancy of Jesus there were several communications by dreams, and Eli's wife suffered in a dream because of him at the end of his ministry. We cannot but think of Job xxxiii, 14-17, where he read of God speaking in a dream, in a vision of the night when deep sleep falleth upon me, in slumberings upon the bed that He may withdraw man from his purpose and hide pride from man.

We think also of Num. xii, 6, where He said that while He might talk to others in a vision and in dream, He would speak to Moses, His servant, mouth to mouth; therefore it is written of Moses: There arose not a prophet since in Israel like unto Moses, whom the Lord knew face to face. (Leut. xxiv, 10).

While there are no degrees in salvation and all who are truly redeemed are equally safe by virtue of the great atonement, there are great differences in the intimacy of the redeemed with the Lord and in their fellowship with Him. I suppose that no two righteous men could be farther apart in this matter than Abram and Lot, and not many exceed Joseph in his intimacy with God, but think of what it cost him! And just there is our difficulty. Many are glad to rejoice in their personal salvation, but few comparatively are willing to humble themselves to walk with God as He desires they should.

In that sense many are called, but few are chosen. It is no small thing to deny self, be always unto death, but in no other way can the life of Christ be manifest in these mortal bodies (II Cor. iv, 10-11).

One would scarcely believe that the offense of Pharaoh's chief butler and baker could possibly have anything to do with the working out of God's plan for Joseph, and that the wrath of man could thus be overruled, but it is a weighty saying. 'Surely the wrath of man shall praise thee' (Ps. lxxvi, 10). 'Why should Joseph care whether these were sad or otherwise? Did he not enough troubles of his own? But see the compassion of Christ, who could take some hours on the resurrection afternoon to walk with and comfort two sad men. It sounds odd to hear Joseph say to these men concerning their dreams: Do not interpretations belong to God? Tell me, I pray you. (verses 6-8).

If he had said: Tell God, who only can interpret it: it would seem all right. But it was all right, for Joseph knew God and represented God, and God was with him. As he was able to interpret the dreams of these men he must have been able to understand the dreams that God gave to him and was as suggested in a previous lesson, no doubt sustained by the future which they revealed to him. Yet he felt the time long, and the wrong which he was enduring, for hear him as he says so pitifully: Indeed, I was stolen away. And here also have I done nothing that they should put me into the dungeon. Think on me when it shall be well with thee, and she kindness, I pray thee, unto me and make mention of me unto Pharaoh, and bring me out of this house' (verses 14-17). What a record in verse 23: Yet did not the chief butler, member Joseph but forgot him. Some one has said that such people are not all called butlers.

There is a record in Eccl. ix, 15, of a poor wise man, who by his wisdom delivered a city yet no man remembered that. The poor man, What shall ye say of Him, who though He was rich, for our sakes became poor and humbled Himself unto death for us that we, through His poverty, might be rich, and yet who of us remembers Him in any way at we should?

Miss Habershon's typical suggestions from this chapter are in reference to Jesus being bound and led away. His hands and feet pierced, two malefactors crucified with Him, a message of life to the one only (Matt. xxvii, 2; Ps. xxii, 16; Luke xxiii, 32, 43). Joseph said: Wherefore look ye so sadly? Think on me, show kindness unto me, make mention of me, and he served them (Luke xxii, 27; xxiv 17; I Cor. xi, 24; Matt. xxv, 40; x, 32).

We must not forget the being numbered with transgressors (Isa. liii, 12; Luke xxi, 37). We must have hurt Joseph badly to be accused of the very thing he scorned to do, and no doubt the report was circulated in Potiphar's household and elsewhere and believed in many, and the mod young man held up to ridicule. Think of the Lord Jesus ridiculed as a glutton, a wine-drinker, a companion of sinners, possessed by the devil, crucified as an evil doer scoffed at as He suffered. But God raised Him from the dead and gave Him glory.

The dead are soon forgotten—and so are a lot of us who are alive.

## Westcott News

Mr. and Mrs. Ben. Hunsperger have moved back into their old home at Westcott.

A welcome visitor arrived at the home of Mr. and Mrs. Dan Russell the other day in the form of a bouncing baby boy.

Messrs. Vipond and Stickney took in a fine bunch of steers the other day which averaged about \$100 a piece.

Mrs. Anna Ross is seriously ill at the home of Mr. John Manson. The burden she has carried the last year has gradually worn her down. She has now disposed of her property and we hope she will take a well deserved season's rest.

Jack Cooper has moved his bunch of horses and cattle back to the foothills for the summer.

James Finlay of Alsask has returned to Westcott after an absence of two years. He was accompanied by his father who has been visiting with him during the past winter.

## Here and There a Thought

Men are mostly like tea leaves—real strength and goodness do not come out until they have been in hot water.

Time will tell on a man, especially a high old time.

Better be one-sided than two-faced.

After a young man succeeds in printing a kiss on the lips of a pretty girl, he isn't satisfied until he runs off a large edition.

Time flies, but the orchestra leader can beat it.

Many a man who has made a failure of everything else imagines he is a success as a husband.

A little sighing, a little crying, a little dying and a great deal of lying—that is love.

Some men are like hitching posts—they are steady enough, but they never get anywhere.

Appetite and reason are like two buckets in a well—when one is up the other is down.—Western Standard.

# SAVED FROM SUICIDE

## Letter to Him Announcing Her Intention Rushed to Public Station

Paris, France.—A dramatic attempt at suicide by a girl of 19, named Noel, was prevented at Cherbourg recently by the presence of mind of her brother, a railway guard.

The young man was swinging himself on the footboard of a train which was leaving for Paris when a letter without an envelope was handed him. The letter contained a few incoherent lines from his sister saying that she was going to commit suicide, and that her body would be found in the sea at the end of the jetty.

Young Noel at the risk of his life, jumped from the train, retaining hold of the rail, and running along with the train, gave his sister's letter to a man at the other end of the platform, where he swung himself on the footboard again, shouting to his colleague to run as hard as he could with the letter to the police.

Fortunately, there was a police magistrate in the station, and more fortunately still, there was a motor-car just outside. The police magistrate dashed at full speed down the jetty and arrived as Miss Noel threw herself into the sea. The magistrate shouted to three customs house officers in a boat which was putting into the harbor and they succeeded in saving the girl when she was nearly 100 yards from shore. Her brother received the news of her rescue when the train arrived at Caen.

## TOBACCO SMUGGLE IN PRISON

Official Guilty of the Act Is Sent to Jail for Four Months

London, England. An extraordinary story of the ease with which convicts have been able to communicate illicitly with their friends and receive presents of tobacco from them was unfolded at the Portland police court recently.

Samuel Crowhurst, a civil guard at Portland convict prison, was charged with having illegally conveyed tobacco into the prison. As he pleaded guilty no evidence was taken; but Mr. Prym, who appeared for the treasury, fully explained the details of the case.

He said that Crowhurst did not come in contact with the convicts within the prison hall but he had an opportunity of seeing convicts who worked apart from the ordinary gangs outside of the prison.

One such man was a convict named Day, with whom Crowhurst became acquainted and used as a medium between other convicts and their friends. At the end of last year there was considerable traffic in the prison and a watch being kept, a quantity of tobacco was found concealed in a part of the prison where Day worked. The tobacco was found in a ground frame used for rearing plants and was hidden under sawdust.

Chief Inspector Ward and Inspector Burton were sent from London to make a special investigation. They found that Day had received letters which various convicts had written to their friends asking them to send money for tobacco.

They also found that Day had handed the letters to Crowhurst, and that he had inserted in them a film of paper requesting money for the tobacco to be sent to Mr. Crother, care of post-office.

Postal orders were sent by friends to Crowhurst, and they were received and cashed by Crowhurst who handed tobacco, handed it to Day, who in turn put it in a secret store and eventually distributed it among the other convicts.

The magistrates sent Crowhurst to prison for four months.

## The Woman and the Dog

An elderly woman, with a small dog upon her lap, while riding in a trolley car, asked the conductor if he would kindly tell her when he got to Hazel street.

After she had got up two or three times, the conductor told her to keep her seat and he would let her know when they reached Hazel street.

Finally he called out: Hazel street. The woman held the dog up to the window, and said: Plo, look! There's where you were born! Then turning to the conductor, she remarked, I'm going to the end of the line.

A city woman who recently passed a few days at a farm, bought some poultry from the farmer with a view to providing fresh eggs for breakfast every morning. She sent them to town by messenger, at the same time despatching a note to her husband telling him to look out for the consignment. Her husband, on reaching his home that night, asked if the poultry had arrived. He was informed that it had, but explained the servant he had carelessly left the basement door open and all the chickens had escaped. A fowl hunt was immediately organized. The next day the husband, meeting his wife on her return, exclaimed: A nice time I had with your poultry. I spent three hours hunting and only found ten.

You may consider yourself lucky, then, replied his wife, for I only bought six.

**Wretched From Asthma.**—Strength of body and vigor of mind are inevitably impaired by the visitations of asthma. Who can live under the cloud of recurring attacks and keep body and mind at their full efficiency? Dr. J. D. Kellogg's Asthma Remedy dispels the cloud by removing the cause. It does relieve. It does restore the sufferer to normal bodily trim and mental happiness.

## A Good Sign

A French diplomat at a luncheon in Washington, praised President Wilson's inaugural address.

I liked the modest tone of this address, he said. I liked the ending, where he asked so humbly and so sincerely for the people's support and counsel.

A Princeton woman nodded approval. Sincerely and modestly, she said are the keynotes of the President's character.

They assure us that he will do nothing inimical to the people's will. He will remember what I once heard him say.

The wise leader is he who knows when to follow.

## A Clear Record

Seeing the youngster sitting on the doorstep, crying pitifully, a kind-hearted old gentleman went up to him, and asked what might be the matter with the lad.

Hunger appeared to be the matter; the boy said he hadn't had anything to eat that day.

But why doesn't your father give you food?

No reply.  
What is your father? asked the would-be philanthropist.

He's my father, came the somewhat astounding reply.

Yes, but what is he?

Ow, really he's my stepfather.

Yes, yes, yes! exclaimed the old gentleman impatiently. But what does he do? Sweep chimneys, drive a bus, or what?

The light of intelligence suddenly dawned on the small boy's puzzled face.

Oh, he ain't done nuffin since we 'ad 'im, he replied.

## Snake Slayers

Paris.—M. M. Ple and Caze, professional viper killers, employed by the prefecture of the Seine et Marne district of France, have earned \$150 and \$140, respectively by destroying snakes in the forest of Fontainebleau during the past year.

## Buried Alive

Cardiff.—While excavations were being made at an old colliery tip near Dafen Tin Works, Llanelly, the side of the tip gave way and about twenty tons of refuse fell on Richard John, a colliery proprietor, who was superintending the work.

## KAISER APOLOGIZES TO TENANT

Man of Whom He Had Spoken Slightly in Public Has His Revenge

Berlin, Germany.—The case of the kaiser's tenant, Herr Sohst, has been settled to the satisfaction of both parties. Herr Sohst has consented to give up his farm, the lease of which had still five years to run, on payment of \$30,000 from the kaiser's agent. Herr Sohst has also received a letter from the kaiser's civil cabinet, the contents of which are not divulged, but in which, presumably, regret is expressed that his majesty had been misinformed.

Finally, and this makes a deep impression here, Herr Sohst has had conferred on him the Fourth Class of the Order of the Crown, probably as a sort of salve for his wounded feelings.

It will be remembered that last February, at a meeting of the German Agricultural Association, the kaiser addressed this body, giving his experiences on his estate at Cadinen. In the course of his observations he remarked that one of his tenants, whom he described as no good, had been thrown out by him. This tenant was Herr Sohst, who is regarded in the neighborhood as a most capable farmer, and whose lease had still several years to run.

It has taken six weeks to arrange the matter, and in some quarters it is believed that it would not have been arranged even now had not the crown prince taken the matter up and urged a settlement.

## Cornerstone of Successful Farming

More essential than instruction in farming itself is the teaching of domestic economy as it may be applied by the farmer's wife, for domestic economy is the underlying principle of successful farming. The farmer may work for years but he can progress no further than his wife progresses. If the woman is without the knowledge to become efficient in her department then farm life is one of discontent and dissatisfaction.

## FOUND THE CAUSE THE REST WAS EASY

DODD'S KIDNEY PILLS QUICKLY CURED HIS KIDNEY DISEASE

How Hudson Marchbank, After Suffering for Five Years, Found Quick Relief and Permanent Cure in the Greatest of Canadian Remedies

Marchbank, King's County, N.B. (Special).—After suffering for five years from kidney disease, brought on by a strain, Hudson Marchbank, Esq., the well-known farmer of this place, is again a strong, healthy man, and another great cure for Dodd's Kidney Pills has been put on record. In an interview Mr. Marchbank says:

"About five years ago I hurt my back from lifting, and it developed into kidney disease. My back pained me all the time, and I was very much troubled with headaches. My appetite was fitful; I had a bitter taste in my mouth in the mornings; I perspired freely, and my perspiration had a disagreeable odor."

"I used liniments and plasters, but they did not do me any good, and as there were other symptoms that my kidneys were affected, I decided to try Dodd's Kidney Pills. After using two boxes, my back was completely cured, and my kidneys have not troubled me since."

When Mr. Marchbank decided that his kidneys were the cause of his troubles, the rest was easy. Almost any of his neighbors could tell him that Dodd's Kidney Pills always cure diseased kidneys.

## Is Health Only A Game of Chance?

If you are accustomed to look on health as a gamble you will probably prove a loser early in the game.

Some may holl on to health and life for considerable time and defy the laws of nature, but there are many rules of the game which are conducive to health and long life.

Take nervous diseases, for example. There are many symptoms to warn one of the approach of nervous exhaustion long before there is danger of locomotor ataxia or some dreadful form of paralysis.

But they seem such little things that their danger signal is not taken notice of. Sleeplessness, headache,

## JUDGE AND LAWYER ASSAILED

Strange and Turbulent Scene Marks

Close of Murder Trial at Naples

Naples, Italy.—The trial of Yvoane de Villespreux, the young Italian comedy actress, who is said to have killed her lover, Dr. Etore Turdo, in a fit of jealousy, has come to an abrupt close with disgraceful scenes of violence between the king's procurator general and the lawyers for the defense.

Although the accused has been in prison awaiting trial for three years, the medical experts it is said, have not had time to examine her mental condition, while the chief of the forty witnesses are now scattered in various parts of North and South America and Erythra. For these reasons the procurator general, who corresponds to the American district attorney, moved the indefinite postponement of the trial to a future date. To this the presiding judge agreed.

This was the signal for an outbreak of disorder. Atrocious insults were hurled from the well of the court against the chancellor, procurator and judges. "Scoundrels, liars!" bawled the procurator general. "Base villain!" retorted the chief lawyers for the defense. The procurator then sprang from the bench with uplifted fists. Court attendants hurriedly interposed themselves between the combatants, while the presiding judge jumped from the bench, and tugging vigorously at the procurator's toga, got that official out of danger by a back exit. The crowd cheered the disorderly lawyers, while armed police were ordered to clear the court.

Before this amazing scene the judge had put the prisoner through clever cross-examination, during which, after reminding her that before she was 18 she had been twice charged with theft and condemned to ten months' detention in a reformatory, he elicited that instead of having been born in Spain, as she pretended Villespreux had never been nearer that country than Turin, her native city. She admitted that her real name is Fornais, that she had fled from home when barely 13, and that before starting her stage-career she had been a chambermaid. She pleaded she took the blame of one of the thefts herself, in order to shield a criminal lover she was living with at the time.

## I.O.O.F. New Lodge Rooms

The local lodge of the I. O. O. F. have completed their new lodge rooms over I. N. Kaufman's store on Railway avenue. The work in these rooms has been done entirely by the lodge members themselves in their spare time and they reflect great credit on their skill and good taste in their decoration. The furniture is all new and very comfortable. Again Didsbury can be proud of the enterprise of its citizens in doing whatever they undertake thoroughly, and this addition is in line with other institutions.

The dedication services will be held on the evening of May 8th and invitations will be extended to a large number of outside lodges to attend. It is expected that the initiatory degree will be exemplified on that evening by the local members of the lodge and a banquet will also be given. All members of the I. O. O. F. are requested to keep this date clear and attend the opening of the new lodge rooms.

## Football League Meeting

The annual meeting of the Central Alberta Football League was held at Olds last week. Representatives were present from Red Deer, Innisfail, Olds and Didsbury. Carstairs could not send a delegate, but intimated a readiness to join, and this district of the league will consist of the clubs mentioned.

The entrance fee for the season was fixed at \$5 for each team, which must be paid to the president before the first game.

W. G. Wilson, Innisfail, was elected president of the league and W. Masson, Olds, secretary for the year.

The results of all games, with name of referee, are to be reported to the president immediately after each game. Referees are to be mutually agreed upon by the contesting teams. In case of non-agreement, application for referee must be made to the president at least 24 hours before the game.

The following schedule was adopted, Red Deer opening the season at Innisfail on May 24th, and Olds playing at Didsbury:

- May 24—Red Deer at Innisfail Olds at Didsbury.
- May 27—Didsbury at Carstairs.
- May 30—Olds at Innisfail.
- June 3—Innisfail at Red Deer. Didsbury at Olds.
- June 6—Carstairs at Red Deer.
- June 9—Innisfail at Olds.
- June 13—Carstairs at Olds.
- June 16—Innisfail at Didsbury.
- June 20—Red Deer at Didsbury.
- June 23—Didsbury at Innisfail.
- June 27—Red Deer at Olds.
- July 1—Carstairs at Didsbury. Olds at Red Deer.
- July 4—Innisfail at Carstairs.
- July 8—Olds at Carstairs.
- July 11—Carstairs at Innisfail.
- July 14—Red Deer at Carstairs.
- July 18—Didsbury at Red Deer.

L. J. Kalbfleisch represented the Didsbury team at the meeting.
